Classes/divisions:

There will be three classes of racing offered – Production, Performance and Cruiser. Note that entrants in Cruiser class sail as one division (unless there is a significant number of entrants) regardless of weight and permitted enhancements to blokarts.

Up to four divisions will be offered in each of Production and Performance classes and the number of divisions will be determined by the race committee after the total number of entrants is known. The number of entrants in each division will be determined, after weigh-in has been completed, in accordance with the guidelines provided in Attachment 1.

The race committee has discretion to adjust numbers in each division to ensure weight ranges within a division are as equitable as possible.

Where there are fewer than six entrants in Cruiser class at 1900 hours on 5 October 2017, entrants will be offered the opportunity to either move to another class or withdraw from the event and have their entry fees refunded.

A table summarising the mechanism to achieve division splits is provided in Attachment 1.

Concurrent Races:

Preference will be given to run each class and division separately, but the race committee may require classes and/or divisions to be sailed concurrently with the results being split out by class and division.

Format and Rules:

Racing will be in accordance with the IBRA Rule Book Edition 5 Amendment 1 (Published February 2016). This can be read on the NZBAI website at <http://www.bai.co.nz/blokart-sailing/rules/>. The Rules are to be read in conjunction with the Sailing Instructions which notify changes to the Rules. If applicable, other changes will be advised during a briefing.

Arrangements for Division Splits and Prizes to Be Allocated When Low Entrant Numbers

Modified Flexible Weight Band (MFWB)

The key of the MFWB system is to retain flexibility and use common sense, applying 'guidelines' rather than 'fixed criteria'.

1. Total entrants are divided by the number of divisions to allocate names in each division – with all divisions within a class having fairly similar numbers.
2. *However*, the race committee has discretion to make adjustments to ensure there are no gross variations at the margins – (ie adjust the entrants at the margins to make weight ranges within as equitable as possible), and to reduce the number of divisions within a class for race efficiency.

The following same guidelines shall apply for both Performance and Production Classes:

No of Entrants in Class	Weight Spread < 20kg (heaviest to lightest)	Weight Spread >20kg (heaviest to lightest)
1 – 2	1 Division – 1 st only	1 Division – 1 st only
3 – 5	1 Division – 1 st & 2 nd	2 Divisions (run concurrently) – 1 st in each
6 – 11	1 Division – 1 st , 2 nd & 3 rd	2 Divisions (run concurrently) – 1 st & 2 nd in each only
12 or more	1 Division to max. manageable field size for course and then split as required up to max. 4 divisions & minimum 6 in each division – 1 st , 2 nd & 3 rd in each division	Minimum 2 Divisions and then split as required up to max. 4 divisions & minimum 6 in each – 1 st , 2 nd & 3 rd in each division
